appointment as a Judge of the Supreme Court.

Solar Energy Programme for Water Pumps

2762. SHRI MURLIDHAR CHANDRAKANT BHANDARE; Will the PRIME MINISTER be pleased to state the progress achieved so far to use solar energy for operation of agricultural water pumps in the villages?

THE MINISTER OF STATE OF THE MINISTRY OF PLANNING AND IMPLEMENTATION AND MINISTER OF STATE IN THE MINISTRY OF NON-CONVENTIONAL ENERGY SOURCES (SHRI SUKH RAM): As part of the solar photovoltaic demonstration programme of the Ministry of Non-Conventional Energy Sources, solar powered pumping systems with the capacity of 300-360 watts were installed in various parts of the country. These pumps have proved useful in places where the total pumpng head is less than 8 meters and for cash crops grown in small land holdings. Larger capacity pumping systems of 600-900 watts have been developed and tested. The photovoltaic programme will incorporate such larger capacity pumps during the Eighth Plan period.

Setting up of the three Solar Dryers in the Region of Haryana

2763. SHRI RAMDAS AGARWAL: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that Department of Non-Conventional Energy Sources (DNES) paid Rs. 41.34 lakhs to the National Industrial Development Corporation (NIDC) for setting up three solar dryers at Rai Bareilly, Sultanpur and Sonepat;

(b) whether it is also a fact that NIDC failed to set up the dryers and refunded only Rs. 37.92 lakhs in May, 1989 retaining R.s. 3.42 lakhs expended by it;

(c) if so, what arc the details thereof and the reasons for non-execution of the job;

(d) whether in this case Government had not gone into the accountability for inadequate techno-economic feasibility of the project before the release of substantial budgetary resources as interest free advances to a Public Sector Undertaking; and

(c) if so, who is responsible for this huge loss and non-installation of solar dryers and whether Government propose to hold an independent, inquiry?

THE MINISTER OF STATE OF THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION AND MINISTER OF STATE IN THE MINISTRY OF NONCONVENTIONAL ENERGY SOURCES (SHRI SUKH RAM): (a) Yes, Sir.

(b) The Project had been terminated and NIDC has returned the total sum of Rs. 41.34 lakh.

(c) to (e) As, technology was not available for solar drying, the Projects were undertaken to evolve designs for multi-purpose solar dryer. The NIDC was assigned the work for designing the dryers and implementation of the projects. The designs were evaluated by the exports committee consisting of members from various organisations working in the area of solar thermal energy.

NIDC could not succeed in getting the projects going as the contractor appointed by it did not even start the work for couple of years. Considering the time and financial over-runs, the Government decided to close-down the project.

Use of Solar Energy in Ladakh Region

2764. SHRI JAGMOHAN: Will the PRIME MINISTER be pleased to state:

(a) what progress has been made in making effective use of solar energy in Ladakh region to heat up houses and work places;
